## PROFESSIONAL SUMMARY

Detail-oriented and motivated Software Tester with hands-on experience in Manual Testing. Familiar with SDLC, STLC, Agile/Scrum methodology, Functional Testing, Smoke Testing, Regression Testing, Integration Testing, System Testing, and Defect Reporting. Experienced in creating test scenarios and test cases, executing test cases, identifying and reporting defects, and validating application functionality. Quick learner with strong analytical, problem-solving, and communication skills committed to delivering high-quality software.

## TECHNICAL SKILLS

### Testing Types

- Manual Testing
- Black Box Testing
- Functional Testing
- Regression Testing
- Smoke Testing
- Sanity Testing
- Integration Testing

### Methodologies

- Agile Scrum (Daily Stand-ups, Sprint Planning, Sprint Reviews)

### Testing Concepts

- SDLC, STLC
- Test Case Writing
- Test Execution
- Test Scenario Design
- Defect Tracking
- Bug Life Cycle
- Severity and Priority

### Tools & Systems

- Jira (Defect Tracking)
- Eclipse, Visual Studio
- Windows 10/11

## PROJECTS & TESTING EXPERIENCE

### Manual Tester | ShopperStack – E-Commerce Web Application

Domain: E-Commerce | Tools: Jira | Methodology: Agile Scrum

- Analyzed business requirements and authored 35+ test scenarios and test cases covering Login, Product Search, Shopping Cart, and Checkout modules.
- Executed end-to-end functional testing to verify all application features against requirements.
- Performed regression testing after each bug-fix cycle to ensure no new defects were introduced.
- Conducted smoke and sanity testing on every new build to validate application stability.
- Logged and tracked defects in Jira with severity, priority, and steps to reproduce.
- Executed integration testing between Cart and Payment modules.
- Validated UI for usability, consistency, and cross-browser compatibility.

### Manual Tester | JioMart Web Application Testing

Domain: E-Commerce | Tools: Browser | Methodology: Agile Scrum

- Tested modules including Login, Registration, Search, Filters, Add to Cart, and Payment.
- Executed positive and negative test cases to validate application behavior.
- Performed end-to-end testing to ensure smooth user workflow.
- Participated in defect tracking and re-testing after bug fixes.
- Ensured application stability through smoke and sanity testing.

## EDUCATION

### Bachelor of Computer Application (BCA)

Savitribai Phule Pune University | 2025 | CGPA: 6.26

### 10th Standard

Vidya Vardhini High School, Udgir | 2020 | 66.20%

## CORE COMPETENCIES

Communication • Problem Solving • Quick Learner • Adaptability • Team Collaboration • Attention to Detail

## INTERESTS

Software Testing • Bug Finding • Exploring Web Applications • Learning Testing Tools

## CERTIFICATIONS

Certified Software Test Engineer – Q Spiders, a unit of Testyantra Software Solutions Pvt. Ltd.
